

# DIGITAL CAREERS

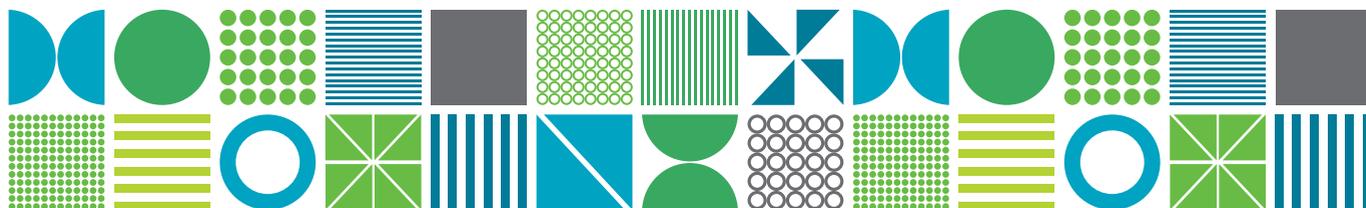

## Are you a Year 9–12, VET or tertiary student or graduate considering your career options?

Digital and information, communication and technology (ICT) skills are a great building base for a cutting edge career.

Consider launching your career in the Tasmanian State Service where:

- Your digital and ICT skills are valued
- You can make a difference for the Tasmanian community
- You will be supported in your career with access to ongoing training and development opportunities.

An initiative of

## Why launch your career in Tasmania?

Tasmania is a great place to launch your digital career with a wide range of job opportunities within the Tasmanian State Service.

You don't have to leave the state to have a cutting edge digital career.

Starting your career in your home state means you can stay with your community while developing your skills and experience that is nationally recognised.

A Tasmanian State Service digital career provides the opportunity to use your digital and ICT skills to make a difference across a range of Tasmanian Government Agencies such as Health, Education, Natural Resource Management, Justice, Police, Emergency Services, and State Growth.

## Opportunities to transfer and develop your skills

As digital and ICT skills are needed in all agencies statewide, the Tasmanian State Service provides opportunities to transfer between Agencies and further develop your skills, knowledge and experience.

## What digital career opportunities are available?

The Tasmanian Government offers stable and diverse digital career opportunities in the following career streams:

- Project management
- Data and analytics
- Business analytics
- Technical service streams
- Cyber security

Digital and ICT skills in most demand are:

- Cyber security
- Clouding computing
- User experience design
- Programming software/development
- Systems integration and build
- Project management
- Customer service experience

## Where are jobs located in the Tasmanian State Service?

The Tasmanian Government offers statewide digital career opportunities with jobs located in the North, North-West and South.

## No coding background? Not a problem

The ability to work with people is highly valued in a digital career. 'People skills' are often referred to as 'soft skills' and include: communication skills, teamwork, collaboration, problem solving and planning.

## Values promoting Respect, Excellence and Professionalism

The Tasmanian State Service is underpinned by values promoting respect, excellence, professionalism, customer focus and working together. The Values aim to empower the workforce through staff development and fostering a culture of growth supported by training, development and ongoing career guidance.
